Updated Product Name, Formulation, & Artwork Design: Hygea® Multi-Purpose Washcloths Transitioning to Hygea® XL and Large Full Body Washcloths

ATTN: Customers & Distributors

PDI® is excited to share that our Hygea® Multi-Purpose Washcloths are transitioning to an updated name, formula, and artwork design! The revised name of these washcloths will be Hygea® XL and Large Full Body Washcloths. These updates will be implemented across all Hygea® Multi-Purpose Washcloth SKUs: J14143, J22750, and U12095. The current products are no longer being produced and will continue to be sold until inventory is depleted or through 12/31/2026, whichever comes first. The updated products will be available starting in December 2026. Depending on distributor inventory levels, customers may continue to receive products featuring the current name, formulation, and artwork design over the next few months as the transition to the updated products takes place.

Please Note: This update does not impact the SKU #, packaging material or configuration, wipe material, or case and pallet dimensions.

Current Products:

Updated Products:
