PRODUCT DESCRIPTION
Super Sani-Cloth® Germicidal Disposable Wipe is a premoistened nonwoven durable wipe containing a quaternary ammonium chloride/alcohol based solution. Recommended for use in hospitals and other critical care areas where the control of the hazards of cross-contamination between treated surfaces is required. Designed to be compatible with hard nonporous surfaces and equipment made of plastic, Formica® laminate, glass and more. Some organisms are removed from the surface by thoroughly wiping the surface with the wipe. Most remaining organisms are killed within two (2) minutes by exposure to the liquid in the wipe.
