for nursing from the CA Board of Registered Nursing, Provider #CEP16778

## Webinar Title: Role Hospital Surfaces Have in Disease Transmission: Will Use of a Continuously Active Disinfectant Reduce Microbial Contamination

The learner will be able to:

- Describe the role of the environment in HAI transmission
- Outline best practices for environmental cleaning/disinfection
- Identify options for evaluating environmental cleaning/disinfection
- Highlight options of “no touch” technology for room decontamination
- Describe the role of a continuously active disinfectant for surface disinfection

**Speaker:** Dr. William Rutala, Ph.D., M.P.H.
