Powerful disinfection made easier.

Get ready for an easier way to help protect your patients, staff and healthcare environment. Sani-HyPerCide™ disinfectant is a powerful, ready-to-use hydrogen peroxide formula that kills *Clostridioides difficile*¹ and other relevant pathogens, without compromising compatibility.² Sani-HyPerCide disinfectant can be used on hard nonporous/soft surfaces³, with minimal residue so there’s no need for a secondary cleaning step.

Disinfection without compromise.

⁵ THE NEW SCENT
⁶ COMPATIBLE
⁷ BY DESIGN
Sani-HyPerCide disinfectant is an easy and ready to use formulation. Unlike other sporidical products, where mixing or dilution is required, it is available in a ready to use Spray or Wipe format.

Sani-HyPerCide Spray can be used for Soft Surface Sanitization.

Sani-HyPerCide disinfectant provides a powerful solution to address the most relevant pathogens.

- Effective against relevant microorganisms including *C. auris*, TB and Norovirus in 1 minute.

- Effective against *C. diff.*¹ in 5 minutes.

- Apple cider vinegar like scent, more acceptable than bleach.

- Compatible² with surfaces and materials commonly found in the health care setting. Sani-HyPerCide disinfectant’s Hydrogen Peroxide formula offers improved compatibility³, allowing your teams to focus more on disinfecting and less on the disinfectant.

Sani-HyPerCide disinfectant also shows improved aesthetics over Clorox® Bleach, leaving behind less residue so there’s no need for a secondary cleaning step.
