

# Powerful disinfection made easier.

Get ready for an easier way to help protect your patients, staff and healthcare environment. **Sani-HyPerCide®** disinfectant is a powerful, ready-to-use hydrogen peroxide formula that kills *Clostridioides difficile*<sup>1</sup> and other relevant pathogens, without compromising compatibility.<sup>2</sup> **Sani-HyPerCide** disinfectant can be used on hard nonporous surfaces<sup>3</sup>, with minimal residue so there's no need for a secondary cleaning step.

Disinfection without compromise.

**Sani-HyPerCide®**

**+PDI®**  
BE THE DIFFERENCE

+ **Sani-HyPerCide** disinfectant is an easy and ready to use formulation. Unlike other sporicidal products, where mixing or dilution is required, it is available in a ready to use wipe format.

+ **Sani-HyPerCide** disinfectant provides a powerful solution to address the most relevant pathogens.

Effective against relevant microorganisms including *C. auris*, TB and Norovirus in 1 minute.

Effective against *C. diff*.<sup>1</sup> in 5 minutes.

Compatible<sup>2</sup> with surfaces and materials commonly found in the health care setting. **Sani-HyPerCide** disinfectant's Hydrogen Peroxide formula offers improved compatibility<sup>4</sup>, allowing your teams to focus more on disinfecting and less on the disinfectant.

**Sani-HyPerCide** disinfectant also shows improved aesthetics over **Clorox**® Bleach, leaving behind less residue so there's no need for a secondary cleaning step.
