

Virtual Live Event

GUIDELINE WORKSHOP

Infection Prevention: The New Environment of Care

Understanding evidence-based recommendations and putting them into daily practice requires training and mentoring. **Gather your colleagues and join us for a live, virtual 2020 Guideline Workshop.**

Each interactive, half-day, live, virtual event is designed to enhance your perioperative skills and help you operationalize the *Guidelines for Perioperative Practice* – the gold standard for surgical patient and worker safety.

Workshop Participants Will:

- Do a deep dive into key clinical topics with discussions and exercises led by AORN perioperative experts
- Practice through demonstrations with surgical products
- Gain updated approaches and clinical skills to help manage COVID-19 patients and protect yourself
- Network with peers from other facilities

Topics:

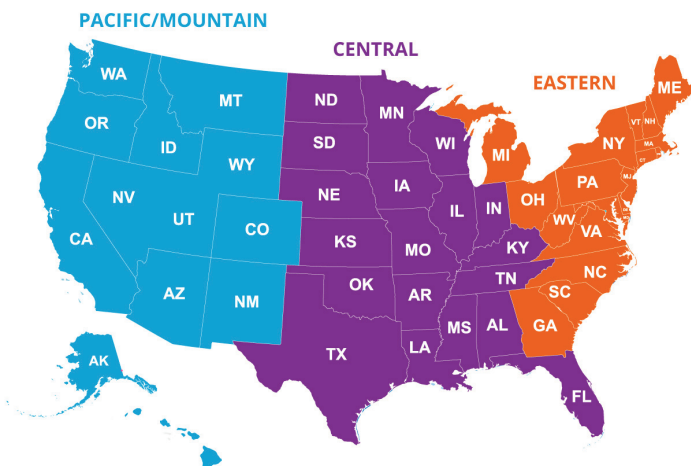

- Environmental Cleaning and Environment of Care
- Surgical Attire, including sanitizing personal devices
- Skin Antisepsis
- Nasal Decolonization

Who Should Attend?

- Nurses
- Surgical Techs
- OR Leaders
- Infection Preventionists
- Quality & Patient Safety Officers
- Environmental Services Leaders

Join the virtual workshop for your area to best network with your regional colleagues, or choose any event date that works best for your schedule.
