

# Two Part Webinar Series: A Layered Approach to Infection Prevention

Brought to you by a partnership between Owens & Minor and PDI.

MARCH 5, 2021 - 1-2pm EST

## Webinar Focus Decolonization and HAI Prevention: Science and Strategies

### Objectives:

- Describe the common flora of the nares and the various potential infections they may cause
- Interpret the evidence to date for strategies to reduce the risk of infection in colonized adults
- List the limitations of screening and treating programs
- Differentiate the strengths and limitations of different decolonization strategies

1 CE granted after completion

### Presenter

**Holly Montejano MS, CIC, CPHQ, VA-BC**

Holly is a Clinical Science Liaison working for PDI Healthcare. Holly has worked in the field as a post-graduate fellow serving as a public health EIS (Epidemic Intelligence Service) Officer and later as a public health epidemiologist and hospital infection preventionist for several years. She has completed a graduate Certification in Infection Control from the University of South Florida and has achieved Board Certification in Infection Control (CIC), Certified Professional in Healthcare Quality (CPHQ), and Vascular Access Board Certification (VA-BC).

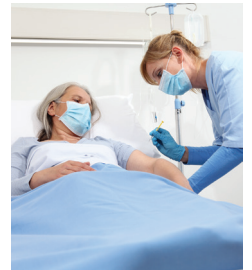

MAY 7, 2021 - 1-2pm EST

## Webinar Focus Spotlight on Chlorhexidine Gluconate (CHG) and its Alcohol Sidekick: Product History, Quality Control/ Assurance Process and Efficacy in Healthcare

### Objectives:

- Describe the mode of action and efficacy of CHG
- Outline the historical development and various uses of CHG in the healthcare setting
- Define quality control and quality assurance and provide industry concern examples
- Differentiate the FDA approval process for CHG/Alcohol-containing skin and device products
- Recite recommendations for skin preparation and needleless connector disinfection with CHG/Alcohol-containing products
- Illustrate examples of CHG healthcare success stories
