

The first and only. Times two.

Sani-24[®] Wipe

First and only EPA registered disinfectant with CAD technology.

Continuously Active Disinfection (CAD) helps control HAI-causing ESKAPE pathogens, for up to 24 hours.¹

CAD technology creates an antimicrobial shield that continues to disinfect surfaces, reducing cross-contamination, even after multiple touches.

Protect your patients, staff, and facility with confidence and control, even between disinfection protocols.

Save money, time and labor.

Sani-HyPerCide[®] Disinfectant

First and only ready-to-use hydrogen peroxide formula that kills *C. diff.*²

Powerful disinfection and versatile compatibility in a unique ready-to-use hydrogen peroxide formulation that kills *Clostridioides difficile* in 5 minutes.

Potential for SKU reduction and cost savings. Can be used facility-wide in either daily or terminal disinfection.

More compatible on surfaces and materials than **Clorox**[®] bleach as shown in bench-top compatibility testing.^{3,4}

Efficient and easy-to-use – Requires no mixing or dilution, and no secondary cleaning steps.
