Sani-Hands® REDESIGNED

INSTANT **HAND SANITIZING** WIPES

NEW LOOK. SAME TRUSTED WIPE.

The #1 Hand Wipe in Healthcare now features a fresh new look![1]

HAND HYGIENE: ANYTIME, ANYWHERE.

Sani-Hands® wipes provide a convenient and reliable hand hygiene solution for healthcare professionals, patients, residents, and visitors.

- ✓ **Kills 99.99%** of many common bacteria found on hands[2]
- ✓ **Made with 70% ethyl alcohol** to meet CDC and WHO recommendations[3,4]
- ✓ Infused with **moisturizing aloe and vitamin E**
- ✓ **FDA Food Code Compliant**–Safe to use before eating and drinking[5]

PDI
BE THE DIFFERENCE

HANDS DOWN THE CLEANER CHOICE.

The wipe format removes dirt and soil better than alcohol-based gels and foams[2], making Sani-Hands® wipes the ideal hand hygiene solution for patients, residents, visitors, and staff.

Competitor Foam Sanitizer

Sani-Hands® Wipes

Hands were soiled, then cleaned with each product. Under UV light, glowing areas show soil left behind. The competitor foam sanitizer left soil behind on the hands, while Sani-Hands® wipes effectively removed the soil, leaving no visible residue.

A FULL LINE OF HAND HYGIENE SOLUTIONS SPECIFICALLY DESIGNED FOR ALL AREAS IN YOUR FACILITY.

- ✓ Individual packets for meal trays and pockets
- ✓ Bedside packs for patients' rooms, bedside tables and patient kits
- ✓ Canisters for hallways, entry areas, lobbies, patient rooms, waiting rooms, nurses stations, etc.

Ideal for hand sanitization when soap and water are not readily available.
